

Over the Whiteboard spacer set

for use with e-Box® Wall mount

Product datasheet

Mounted on
487A02

Over the Whiteboard spacer bracket set for e-Box® wall mount

The accessory can be used on the e-Box® double column design Wall mount 487A02 equipped with the anti-collision feature. The bracket can be mounted to create enough space between the e-Box® mount and the wall to clear a previously installed whiteboard or blackboard. The accessory saves on demolition and repair cost for removing the older whiteboards or blackboards. The spacer should also create enough room to clear a previously fitted pen-tray or electric ducting.

Check the drawing on the reverse for mounting dimensions.
