

The Wings-e is a whiteboard frame to upgrade the touchscreen with two whiteboards. This unique Whiteboard solution can be retro-fitted to an already installed BalanceBox 650 without removing the touchpanel. (please consult our sale support for advice)

In combination with the 481A70 Universal Vesa Bracket the whiteboard frame can be used with screen sizes between 70-75" and 80-86", with a maximum Vesa pattern up to 800x600.

The frame comes with double-sided pivoting whiteboard surfaces on both sides of the touchscreen and is easily mounted on the BalanceBox®650 height adjustable mount, no electric connection needed for the height adjustment. The high quality whiteboard surfaces allow the use of magnets for posting notes.

Technical specifications

Materials and colors	Frame steel powder coated textured Black RAL9005. Glossy enamel white steel whiteboards with anodized aluminum edging
Safety / certification	CE
Used with BalanceBox®650	Add the touchpanel weight and the frame weight together to choose the BalanceBox®650 needed Please contact a sales manager in your region for assistance: www.heightadjustablemounts.com >contact
